

NEW HOLLAND

BULK OIL PROGRAM

PROGRAM OVERVIEW

Designed for producers who annually purchase 250+ gallons or more per lubricant, the Bulk Oil Program from CNH combines the cost-reducing value of bulk fluid ordering with the ease of free delivery for a simple and convenient solution to fleet refueling and maintenance. Simplify fleet management with hands-off refills, reduce shop space and waste with easily stackable and cleanable small bulk storage containers, minimize leftover oil residue from totes, pails and drums, and choose from a variety of Cubetainer™ tank options that meet your specific operational needs. Plus, producers who switch from another oil distributor to the CNH Bulk Oil Program are eligible for a free tank.*

FEATURES & BENEFITS

- Lower price compared to purchase of packaged products.
- Free delivery directly to your location with any minimum bulk purchase of CNH oils, fluids and lubricants.
- Bulk container design minimizes waste from leftover oil residue, which—on average—creates a minimum of 2% waste per standard oil drum.
- Choice of container options in multiple styles and configurations offers flexibility.
- Oil is pumped directly into storage tanks, eliminating costs associated with handling and storage—saving time and labor.
- Stackable containers reduce overall storage space and shop clutter.
- Container designs minimize contamination risk and remove disposal requirements associated with drums, totes, pails and other packaged products.
- Conversion to the Bulk Oil Program may allow for eligibility to receive a free 180-gallon or larger tank.

MINIMUM ORDER QUANTITIES

LOCATION	VOLUME PER PRODUCT
US	200 gallons per order / 100 gallons per product
CAN	500 liters per order / 300 liters per product
